SUPPORT but with time limit. The committee appreciated that there is a shortage of educational space and recognised the financial constraints for students studying from home. With this in mind they were minded to support the application, however they did not wish for the time restriction to be removed indefinitely. They have the best intentions for the pupils going forward and would prefer to see them in more permanent accommodation. The committee would therefore favour a four-year extension limit, and would like to see plans developed during that period for a more permanent structure.
