WATERMARK SPECIFIC					
<p>Until lockdown is over and for possibly sometime afterwards, the main functions of the Watermark, live entertainment, films, coffee shop, room hire etc will continue to be affected to a significant level. Fortunately, the Business Floor occupation has not been greatly affected.</p> <p>The effects may be ameliorated to an extent by grants, furloughing staff, government incentives such as the two meals for one, and any other source of income the Town Clerk is able to identify. The timing of a replacement Watermark manager will have to be closely monitored depending on the scale of activities.</p>

Effect of Climate Change	Increasing extreme weather events – risk of flooding, drought, and reducing ecological diversity in Ivybridge green spaces	H	M	Ongoing work by Parks Committee and ITC Officers to plan for and mitigate impacts of C&EE when planning for Green spaces, ie increased tree works due to increased disease and storm damage, path maintenance etc.	Members to consider
Effect of Climate Change	Increasing extreme weather events	H	H	Consider the creation of a local resilience plan in partnership with other agencies taking into account Council owned property.	Members to consider
	ITC misses opportunities to	L	L	Establish/maintain good working relationships with a range of partners – SHDC, DCC, other local	Members to consider

	work with partners to take steps to tackle the C&EE			Parishes, organisations such as PL21, SDCE, IEAG, and other local groups who share the aim to tackle the C&EE.	
Effect of Climate Change	Reputational risk for ITC for not taking enough action despite declaring C&EE	M	M	Consider the reestablishment of a C&EE working group and ensure that the climatic and ecological conditions are taken into account.	Members to consider
Transport					
Council Business Travel Policy	Failure by Council to incentivise travel by public transport. Inability to be able to use tablets offsite	L	L	Council staff and members draw relatively low travel expenses and have a low carbon footprint Need to ensure that tablets can be used offsite. Need to ensure tablets/laptops are useable on public transport and in other premises.	Members to consider
Town Council Vehicle(s)	No suitable vehicle available at present. Failure by Council to budget for increased purchase cost of vehicle. Adequacy of charging points	M	L	Unable to proceed at present	Need to find an appropriate vehicle when available and to obtain Council approval
Energy

Tree Planting	Maintaining partnership with PL21	L	H	Substantial number already planted at Filham. Need 'per hectare' CO2 absorption figures to justify and identify new sites	Ongoing
Longtimber Woods Management	Need to ensure current scheme continues	L	M	Coppicing and other sustainable woodland management techniques already employed. Looking at community firewood and charcoal burning	Ongoing
Parks Management Plan Improvements	Viability of Schemes	M	M	Introduction of recycle bins in parks. Cutting frequency/timing improvements to improve biodiversity, wildflowers and habitats. Look at design of new Woodlands Cemetery area – more suitable path materials for example General manage plan improvements	Ongoing
Wildflower Meadows/Areas	Obtaining funding for interpretation boards and to deliver workshop sessions Vandalism	M	M	Meadows and areas at edge of fields already in place. Other aspects require further investigation	Work in progress
Education and Promotion					

Planning Policy	Council not adopting recommendation	L	H	<p>Review terms of reference and standing orders for planning committee to include requirement to comment on every application to build new homes, to the effect that we want to see carbon neutral buildings. Also write to relevant national government departments and encourage SHDC and DCC to coordinate too.</p> <p>Also consider a policy to comment based on:</p> <ul style="list-style-type: none"> • All development should take place on brownfield sites • Surface water run off – effect of built environment and the need to add trees etc for water attenuation highlighted • A green travel plan to accompany all planning applications where walking, cycling and public transportation are material considerations. 	Council decisions to be made
Ethical Investments	Council funds are invested in Carbon heavy industries Disadvantages of moving away from current banking arrangements. Inability to influence pension investments.	L	L	<p>Devon Pension Fund Trustees are aware of the need to take note of ethical considerations when agreeing the investment portfolio. However, there is a legal requirement for them to gain the best returns possible within the constraints of security for the members' funds. This is of particular importance as there remains a decreasing but still significant funding shortfall.</p> <p>It is possible that as fossil fuel based companies diminish in prominence and more environmentally friendly companies come more to the fore there will be a shift to investments in those companies. It should also be noted that the Devon Pension fund is part of a much larger fund (Brunel) and the larger fund has the power to influence companies to adopt greener policies.</p>	Banking policy is raised at least annually Investment policy is agreed by Council annually

				Although it is possible, and has been considered by council, some of our funds could be placed with CCLA (Church, Charities and Local Authorities) with whom we already have long term investments. However, Council would have to take into account both the message being sent to the one remaining bank in Ivybridge which we campaigned to keep, and the effect on our overall dealings with that bank as we currently enjoy free banking with no charge for electronic transfers or cheques which is worth in excess of £1,000 annually.	
Purchasing	Technical difficulties suppliers may have to meet specifications. Policy needs to be reasonable, specific and enforceable.	H	H	The Council policy is to take environmental effect into account.	Situation monitored
All Council Policies to have a statement on CO2 impact and reduction	Where it is possible to make such a statement it would need to be accurate and meaningful.	M	H	Council would have to be happy that there was sufficient expertise to make authentic statements and for it to be one of the considerations when formulating specific policies and decisions.	Would need to form part of the Council's climate emergency policy
