

PARKS AND OPEN SPACES COMMITTEE

15 FEBRUARY 2021

LONGTIMBER WOODS

It was previously reported to Members that tree safety and forestry works were due to take place Winter 2020-21, these works having been identified from an assessment carried out by the Town Council's consultant forester Rupert Lane.

The tree safety works were successfully completed by Julian Hull of Hulls Landscapes.

The forestry works were due to be carried out by Will Hampton of Dartmoor Horselogs starting Monday 8th February, however due to the smaller scale of works and current limited market for timber, it was not viable for either the Town Council nor the contractor to bring the heavy horses in on this occasion.

It is **recommended** that Members note that the tree and forestry works proposed for Longtimber Woods have been completed or are due for completion this month.

Keith Rennells – Parks and Open Spaces Consultant

Jonathan Parsons – Town Clerk
