

MEETING REPORT

Meeting: Parks & Open Spaces, 29th January 2024
Agenda item: PA23/036
Report subject: Contribution towards tree works on River Erme
Report author: K Elliott-Turner

Correspondence between DCllr & TCllr Abbott and David Wyatt, SHDC Arboriculture Officer

Vic,

As it stands, the work we looked at is likely to happen in full as expected however, there are some trees that may not necessarily need to be removed as it may open up the area too much especially for the properties along Erme Road. The extent of the proposed tree works will be to open a new corridor from the riverside to be able to see the bridge in all its glory which will be the majority of the works. Now that the vegetation has been cleared from the Harford Road car park side, we can get a better view of the work needed.

The total cost of these works has been given as £4000. If ITC could contribute upto 50% that would be fantastic, if not, anything would be much appreciated.

Regards

David Wyatt | Arboricultural Officer

South Hams District Council | West Devon Borough Council

PROPOSAL: To consider making a contribution towards tree works on the River Erme. This length of proposed works is not in any identified ownership, and therefore SHDC propose sharing the cost with the Town Council.
