Hi Jonathan

Would it be possible to schedule a thirty minute discussion with you?

I note you are putting the community connector funding to your board shortly.

I would like to know what your priorities are at Ivybridge TC, so we can align part of Cluna's community connector role around these. I note you mentioned young people when we spoke previously.

Also, if there the possibility of a hot desk for Cluna, so she has somewhere to work in Ivybridge. [REDACTED], but it would be better for her to have space with a desk/chair, etc. Even if this could be offered on a few days a week, this would be really helpful.

I think this would also be positive in terms of Cluna's connecting work in Ivybridge.

Best wishes
